

Expertise in the Oil and Gas Industry

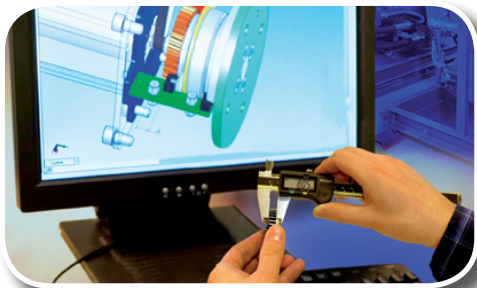

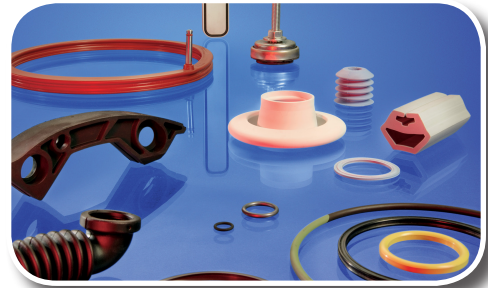

ERIKS continues to provide the highest performing, most technically advanced elastomers and engineering plastics for demanding applications. We offer the highest quality products, manufactured by many of the world's most respected names in sealing technology. We also maintain one of the largest seal inventories in North America to ensure responsive delivery.

We provide our customers with the most objective assessment of the features and benefits of available products to meet their specific needs, not ours. If we cannot find the right product for your application we will work with you to make it.

Product Knowledge

ERIKS unbiased recommendations helps our customers achieve efficiencies via new materials that offer longer life and better performance.

- O-rings
- Spring energized seals
- Custom molded elastomers
- Gaskets & packings
- Rotary seals
- Engineered plastics
- Specialty metal component
- Ring type joints
- Bearings & wear components

Technical Knowledge

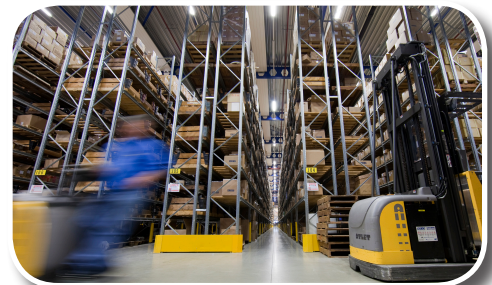

We offer all of the engineering resources you expect from a major manufacturer and combine them with the flexibility of a global service company.

- | | | |
|--|--|---|
| Application Support
- design assistance
- material selection
- seal design
- gland design | Design & Development
- 3D modeling
- finite element analysis
- prototyping
- compound development | Test & Analysis
- tensile strength
- chemical & heat ageing
- hardness
- compression-set
- failure analysis |

Logistics Knowledge

Want an experienced sealing partner who is able to meet the demands of a company with multiple locations both domestic and international.

- Specialized packaging
- Consolidated shipments
- Supplier validation
- PPAP reports
- Compound certificates
- 100% inspection available
- Customer self service
- Vendor managed inventory
- Customer specific packaging
- Parts kits
- EDI
- Increased flexibility

About ERIKS

ERIKS Seals and Plastics is a leading technical resource for sealing products, engineered plastics and bearings required for demanding applications. We provide our customers with the unique combination of product and material expertise combined with efficient, customized logistics.

We offer a wide portfolio of sealing solutions from o-rings, custom molded elastomers, hydraulic seals, bearings, gaskets, spring energized seals and machined engineered plastic components. These products are supported by an in house materials and engineering team that provide technical services for our customers engineering departments. These products and technical services are then combined with efficient logistics programs customized to meet each customer unique needs.

ERIKS Seals & Plastics

1160 Mustang Drive, Suite 100
DFW Airport, TX 75261
Tel: 682.292.5060

ERIKS Technology Center

3856-A Cincinnati Ave
Rocklin, CA 95765
Tel: 916.408.7295

ERIKS Midwest

5330 South Emmer Drive
New Berlin, WI 53151
