

Expertise in Fluid Power Sealing

ERIKS is one of the world's largest suppliers of hydraulic and pneumatic seals, with facilities throughout North America, Europe and Eastern Asia.

ERIKS group offers a trained and dedicated staff of over 2,000 employees committed to serving the specific product and logistical requirements of an ever changing global market.

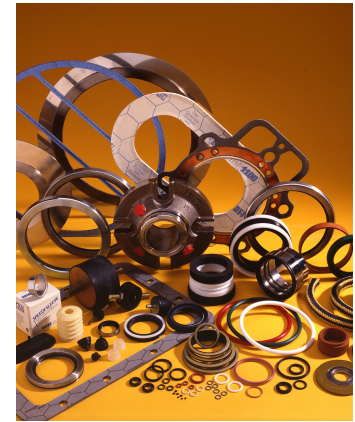

ERIKS offers quality products, manufactured by many of the world's most respected names in sealing technology. We also provide engineered composite components as well as other sealing related in-house fabrication services.

Services

- Assisted Inventory Management for OEM Production Supply
- Aftermarket Support Programs and Kits
- Vendor Managed Inventory / ERIKScan
- Assembly / Subassembly
- Just-in-Time / Kanban
- Quality Certified Shipments
- Private Branding
- EDI / Electronic Invoicing
- Bar Coding

Products

- O-Rings / Q-Rings
- U-Cups / Loaded U-Cups
- Wipers / Scrapers
- Piston & Rod Seals
- Oil Seals / Energized Seals
- Backup Rings
- V-Packing Sets
- Vulcanized Extrusions
- Valve and Pump Packings
- US & Metric Standard Parts

Sealing Products

- Engineering Thermoplastics
- Phenolics & Epoxy Resins
- Custom Molded Components

Machined Composites

- Wear Pads / Rings
- Sheaves / Adapters
- Bushings / Bearings

- Microcellular
- Polyurethane Material
- Gaskets
- Bumpers & Vibration Mounts
- Custom Bonded Components

About ERIKS

ERIKS Seals and Plastics is a leading technical resource for sealing products, engineered plastics and bearings required for demanding applications. We provide our customers with the unique combination of product and material expertise combined with efficient, customized logistics.

We offer a wide portfolio of sealing solutions from o-rings, custom molded elastomers, hydraulic seals, bearings, gaskets, spring energized seals and machined engineered plastic components. These products are supported by an in house materials and engineering team that provide technical services for our customers engineering departments. These products and technical services are then combined with efficient logistics programs customized to meet each customer unique needs.
