

ERIKS Acquires Seals and Packings

Acquisition extends reach into oil and gas market

Dallas, TX April 2, 2015 - ERIKS, an international industrial service provider offering a wide range of high-quality mechanical engineering components, has acquired Texas based Seals and Packings, Inc. Seals and Packings has been in business for over 30 years, delivering high-performance seals and related components to a wide-range of industries. This strategic acquisition enables ERIKS to enhance its client base in the US oil and gas industry and further strengthens its product and service offerings to existing as well as new customers. Customers will benefit as the capabilities of these two leading companies are merged to provide even greater product availability, engineering expertise and customized logistics solutions.

“Seals and Packings has a long history of providing quality products and topnotch services to their customers and they have a highly skilled group of employees with a tremendous amount of industry-specific knowledge and experience,” said Shawn Courtney, President of ERIKS Seals and Plastics. “We believe that these resources, in combination with those already existing here at ERIKS, will enable us to provide an even stronger portfolio of products and services to the marketplace and we look forward to integrating Seals and Packings into the ERIKS family.”
